KILIM

Trame contemporanee

Atmosfere mediterranee, design e ispirazione all'artigianato marocchino si intrecciano in Kilim, un racconto materico fatto di forme, colori e trame. Ispirata alle zellige, le tipiche piastrelle smaltate della tradizione araba, Kilim reinterpreta in piccolo formato l'estetica dei tappeti "kilim": geometrici, simbolici, narrativi. Ogni elemento diventa un filo ideale in una trama personalizzata e unica, ogni progetto di posa un atto creativo.

Contemporary waves

Blending Mediterranean charm with the design and inspiration of Moroccan craftsmanship, Kilim offers a sensory narrative of shapes, colours, and textures. Drawing inspiration from zellige, traditional Arabic glazed tiles, Kilim pays homage to the aesthetics of kilim rugs through small-format tiles evoking their geometric, symbolic, and narrative features. Each tile forms the warp and weft of uniquely crafted patterns, each arrangement an act of creation.

Infiniti intrecci creativi

Versatile e radiosa, KILIM è una collezione pensata per offrire ad architetti, progettisti e interior designer uno strumento creativo dalle infinite potenzialità. Non solo pavimenti e rivestimenti, l'estro supera confini predefiniti dando vita ad elementi d'arredo unici. Due formati, due finiture, un decoro e nove colori tutti da "intrecciare" come i fili di un vero kilim, per dare forma ad ambienti ricchi di emozione, identità e fascino cosmopolita.

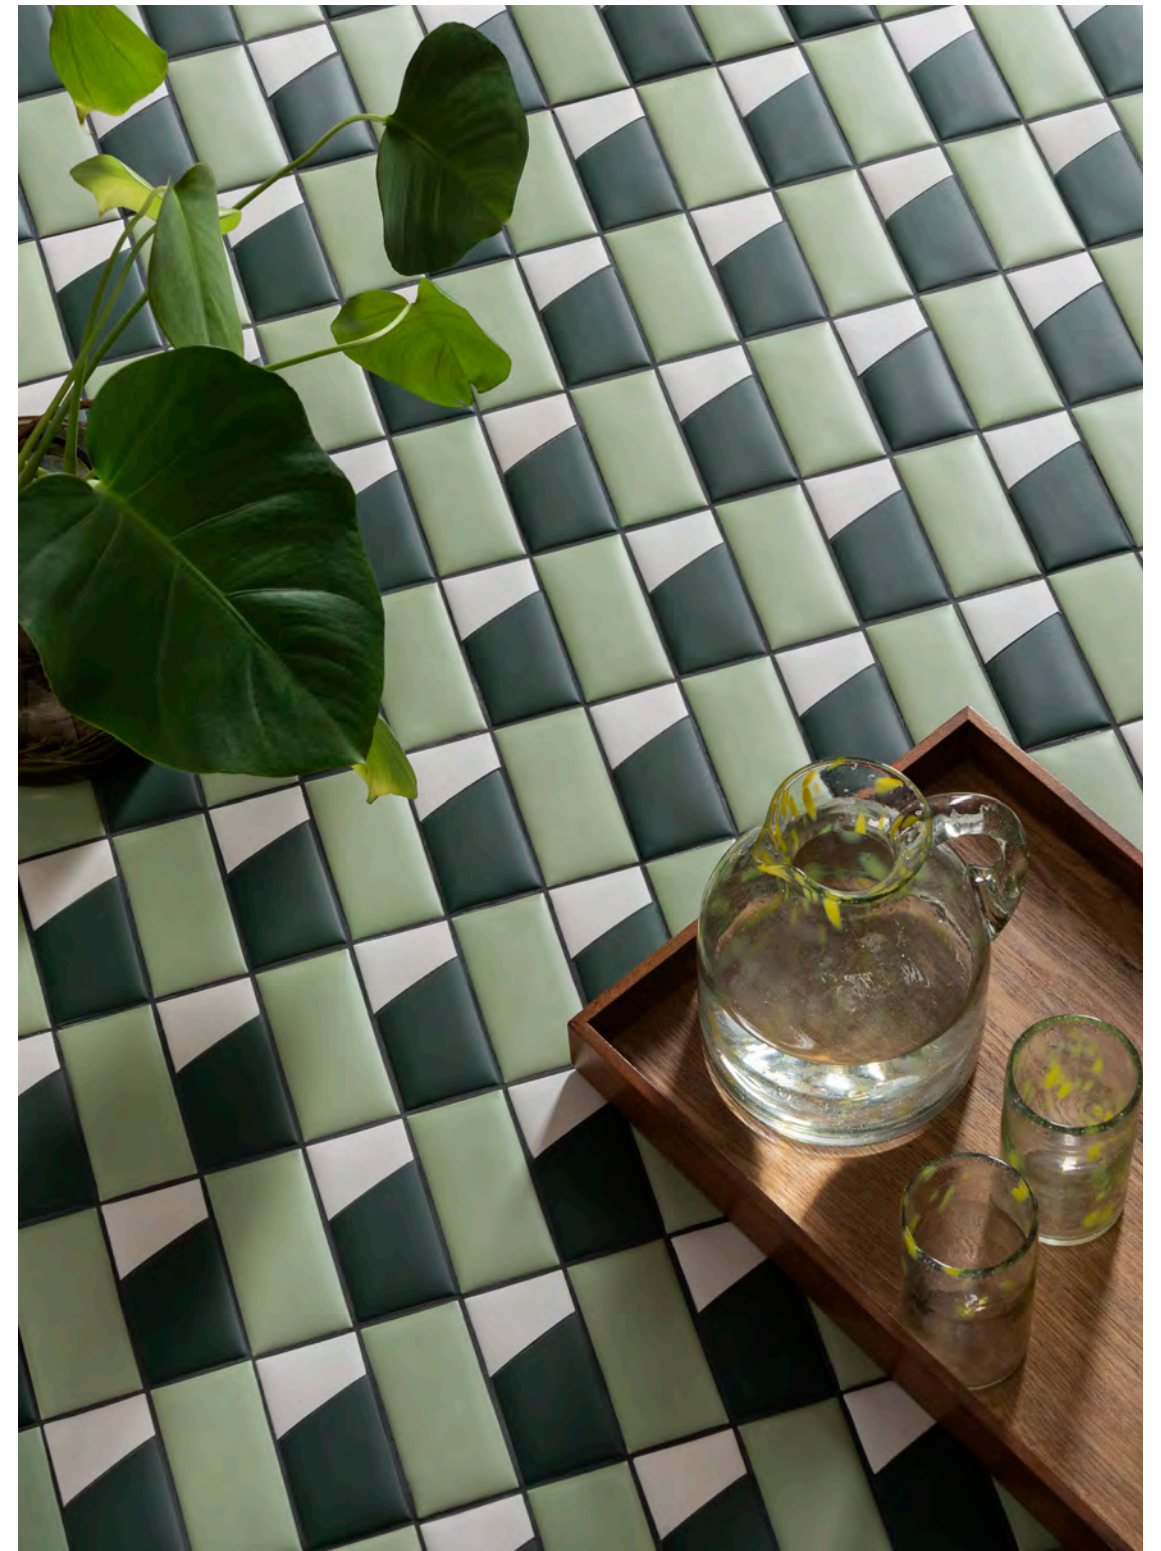

Infinite creative combinations

Versatile and radiant, KILIM is a collection designed to offer architects, designers and interior designers a creative tool with infinite potential. Not just flooring and wall coverings, creativity goes beyond predefined boundaries to give life to unique furnishing elements. Two sizes, two finishes, one pattern and nine colours, all to be 'woven' like the threads of a real kilim, to give shape to environments rich in emotion, identity and cosmopolitan charm.

Giochi di riflessi e luci

La doppia finitura, Matt e Glossy, amplifica la possibilità di costruire trame anche sensoriali: il contrasto tattile e visivo tra superfi ci disegna combinazioni inedite, in un continuo gioco di riflessi e opacità. Ricca, polposa, luminosa la finitura Glossy; intensa, piena, rigorosa quella Matt: il colore si declina nella sua doppia anima, da combinare o da scegliere a piacere.

A play of reflections and lights

The dual finish, Matt and Glossy, amplifies the possibility of creating textures that appeal to the senses: the tactile and visual contrast between surfaces creates unusual combinations, in a continuous interplay of reflections and opacity.

The Glossy finish is rich, lush and luminous, while the Matt finish is intense, full and rigorous: the colour reveals its dual nature, to be combined or chosen as desired.

Può la semplicità di un taglio diagonale generare decori dall'impareggiabile potere creativo? **Khat**, che in arabo significa "linea" o "tratto" è un elemento pensato per essere ruotato, combinato, diretto secondo l'intuito del progettista, per creare pattern contemporanei, eleganti, sorprendenti. Il pezzo tagliato e il suo inverso, ognuno perfettamente integrabile con gli altri elementi della collezione, sono accenti creativi che rendono possibile ogni disegno immaginato.

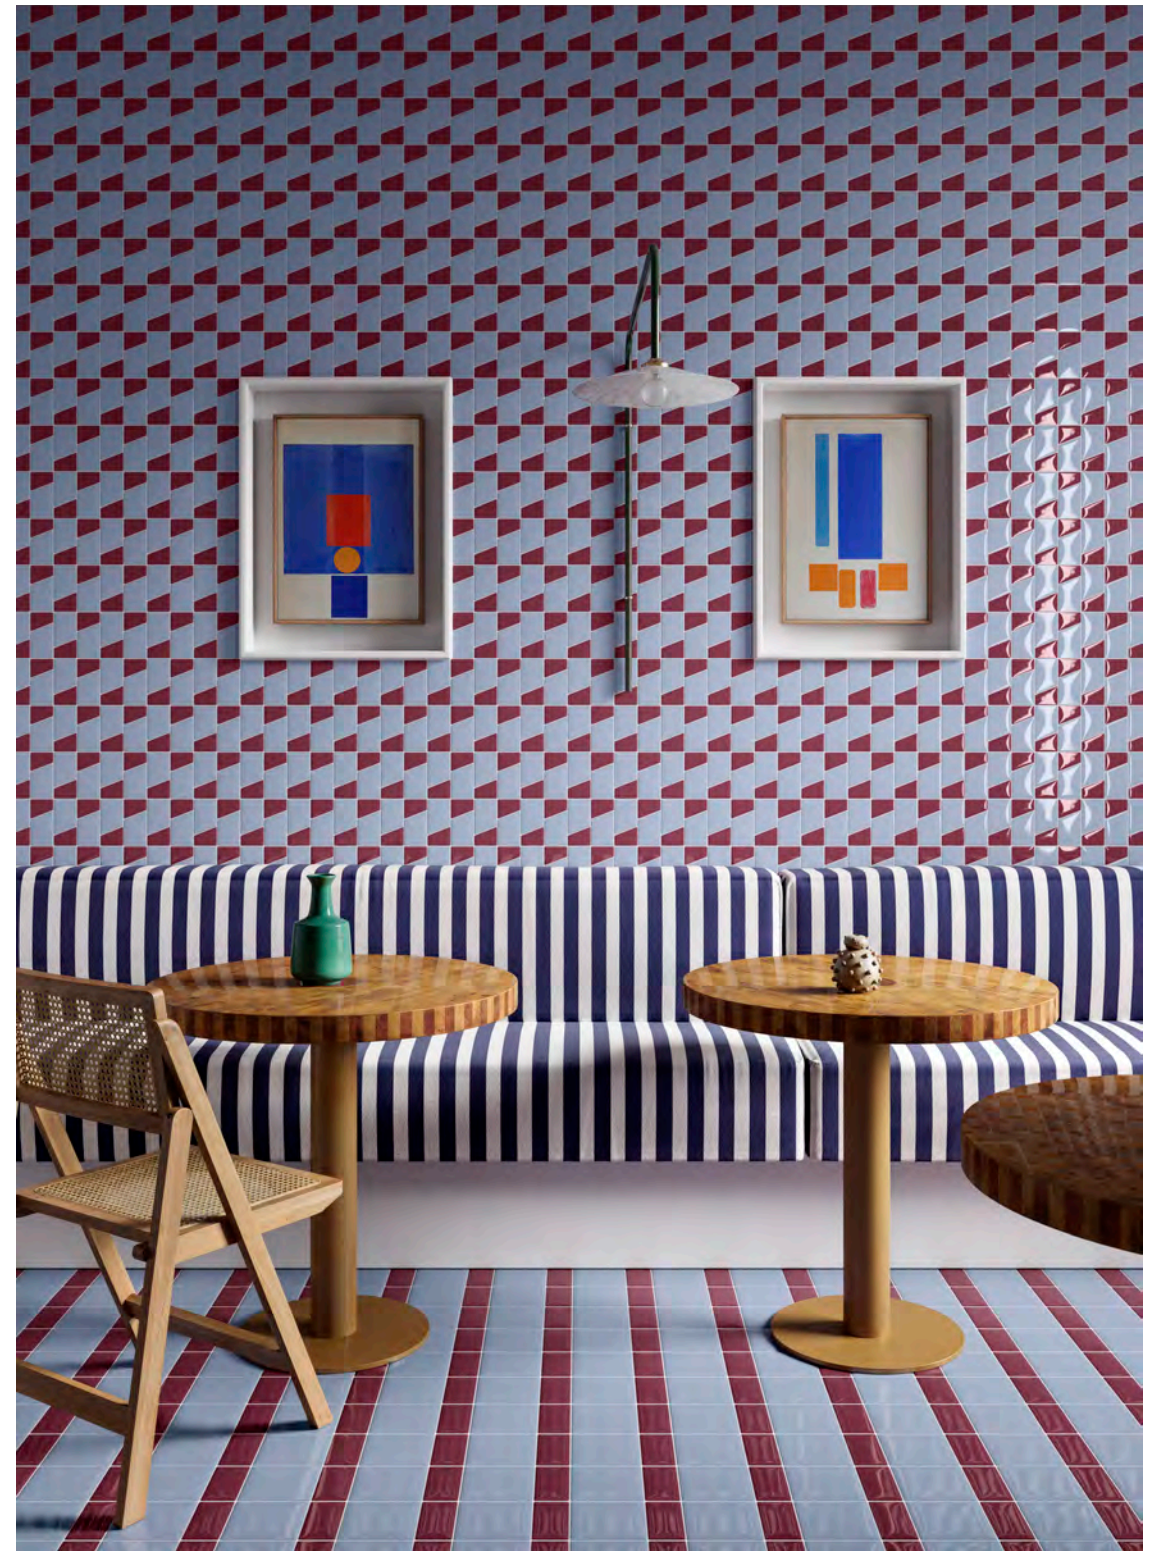

Can the simplicity of a diagonal cut generate decorations with unrivalled creative power? **Khat**, which in Arabic means 'line' or 'stroke', is an element designed to be rotated, combined and directed according to the designer's intuition to create contemporary, elegant and surprising patterns. The cut piece and its inverse, each perfectly integrable with the other elements of the collection, are creative accents that make every imagined design possible.

KILIM KHAT

La progettazione a rete modulare di Khat consente di tagliare il foglio per creare combinazioni diverse, facilmente integrabili con gli altri formati della collezione. Per ridurre al minimo gli scarti di lavorazione, per ogni combinazione cromatica viene proposto anche il relativo taglio inverso. Combinazioni personalizzate possono essere realizzate su richiesta, con ordine minimo e tempi di consegna dedicati.

Khat’s modular grid design allows the mesh backing to be cut to create different combinations that can be easily integrated with other items in the collection. To minimise waste, a corresponding back-cut is also available for each colour combination. Customised combinations can be created upon request, with a minimum order and dedicated delivery times.

La conception modulaire en réseau de Khat permet de découper la filet de montage pour créer différentes combinaisons, facilement intégrables avec les autres formats de la collection. Afin de réduire au minimum les déchets de fabrication, chaque combinaison chromatique est également proposée avec la découpe inverse correspondante. Des combinaisons personnalisées peuvent être réalisées sur demande, avec une commande minimale et des délais de livraison dédiés.

Das modulare Rasterdesign von Khat ermöglicht den Zuschnitt des Bogens, um verschiedene Kombinationen zu schaffen, die sich leicht mit anderen Artikeln der Kollektion kombinieren lassen. Um den Abfall zu minimieren, ist für jede Farbkombination auch ein entsprechender Gegenschnitt erhältlich. Kundenspezifische Kombinationen können auf Anfrage erstellt werden, mit einer Mindestbestellmenge und speziellen Lieferzeiten.
